Matt, velvety, and immensely versatile

The WITAsmart *soft touch* surface with its high-quality and haptically appealing texture is the perfect complement for interior finishing, especially for sheathing, as this direct coating is extremely flexible. The transparent acrylic resin lacquer system provides the surface with a velvety feel. The transparent overlay is especially made as a finish for décor paper.

Typical application area:

Furniture, transparent overlay for laminates or for PUR panelling, for vertical applications

Decors and colours:

transparent

Width:

~ 1,360 mm

Features:
