FITTINGS

Matt, velvety, and immensely versatile

The WITAsmart *soft touch* surface with its high-quality and haptically appealing texture is the perfect complement for interior fittings, as this transparent direct coating has an extremely flexible use range. The acrylic resin lacquer system gives the surface a velvety feel. The transparent overlay is specially designed as a finish for decors.

Typical application area:

transparent overlay for laminates for melamine bonding or PUR bonding, for vertical applications

Width:

~ 1,360 mm

Decors and colours:

transparent
