

ELESGO®

MADE IN GERMANY

A black, rectangular sample of ELESGO SCRAMBLED material is shown, resting on a dark, textured surface. The sample has a small, rectangular label on its top surface that reads 'ELESGO'. The background is dark and textured, possibly a reptile's skin, with some green and blue lighting effects.

Unleash the power of high-tech surfaces with a twist!

ELESGO *scrambled* is a premium laminate surface engineered for high-performance interior and furniture applications. It offers certified 10 Newton scratch resistance, ensuring outstanding durability against daily wear and abrasion. The surface is chemically resistant, impact-resistant, and built to perform in demanding environments. Manufactured through eco-conscious processes using low-emission materials, it meets rigorous environmental standards. Its unique textured finish is achieved through advanced embossing technology, delivering a bold, tactile aesthetic that enhances modern design. Developed and produced in Germany, ELESGO *scrambled* reflects the precision and reliability of German engineering.

**Engineered for performance.
Designed to stand out.**
